LinkedIn: linkedin.com/in/shivani-jaiswal-3861b9242
City: Vadodara, Gujarat

OBJECTIVE

M.Tech final-year Software Engineering student with practical exposure to software development through academic projects and research work. Strong understanding of programming fundamentals, algorithms, and backend systems, with the ability to analyze requirements and translate them into efficient technical solutions.

SKILLS

Programming Languages: C, C++, Java, Python, .Net
Web Technologies: HTML, CSS, JavaScript (ES6+)
Databases: MongoDB, MySQL
Frameworks/Libraries: ReactJs, NumPy, Pandas, Matplotlib, Scikit-learn, Seaborn, Keras
Soft Skills: Problem Solving, Debugging, Analytical Thinking, Team Collaboration, Technical Documentation

EDUCATION

Sigma University	2024 – 2026
M.Tech in Software Engineering (CGPA: 9.60)	Vadodara, Gujarat
Neotech Institute Of Technology	2019 – 2023
B.Tech in Computer Engineering (CGPA: 9.00)	Vadodara, Gujarat
Gurukul Vidyalaya	2018 – 2019
Higher Secondary Education (73.58%)	Vadodara, Gujarat

EXPERIENCE

Lecturer Parul University	Oct 2023 – Present
- Teaching Java, Python, and C++ with strong fundamentals and problem-solving focus. - Designed curriculum, laboratory sessions, and hands-on coding demonstrations. - Bridged theory with practical applications while mentoring students.	
Python Intern Kramit Infotech	Feb 2023 – May 2023
- Worked with Pandas, NumPy, Matplotlib, and Scikit-learn for data analysis. - Performed data preprocessing, analysis, and visualization on real-world datasets. - Applied statistical and analytical techniques to identify patterns and generate meaningful insights.	
Python Intern BrainyBeam Technologies Pvt. Ltd.	June 2022 – Aug 2022
- Developed Python programming and data analysis skills using standard libraries. - Collaborated on software development and data science projects. - Practiced debugging, code optimization, and implementation of Python-based solutions.	

RESEARCH PUBLICATION

A Comprehensive Review on Accurate Mesothelioma Classification Using Medical Imaging and AI Techniques
International Journal of Scientific Research in Science and Technology (IJSRST), Volume 13, Issue 1, January–February 2026
Authors: Shivani Jaiswal, Dr. Sheshang Degadwala, Vidya Vijayan
Published on: 6 January 2026 | **Reference:** IJSRST26134

PROJECTS

Handwritten Digit Recognition System	Python, Deep Learning, Keras, Tkinter
- Developed a supervised machine learning model to recognize handwritten digits. - Implemented a neural network using Keras for training and evaluation. - Studied applications in cheque processing, postal code recognition, and education. - Designed a Tkinter-based graphical user interface for real-time digit input and prediction. - Preprocessed handwritten images and evaluated model performance using accuracy metrics.	
Loan Prediction System	Python, Machine Learning, Scikit-learn
- Built a loan eligibility prediction model using supervised machine learning techniques. - Analyzed income, education, marital status, and loan history. - Compared Logistic Regression, Naive Bayes, and Decision Tree models. - Developed a prediction workflow to classify applicants as eligible or ineligible for loans.	

AWARDS & CERTIFICATIONS

- Diwang Mehta IT Award – Excellence in IT
- SAP Code Unnati Innovation Marathon – Participant
- ARC Award – 1st Rank
- Certificate of Paper Presentation in SICARSTM 2026 Conference

LANGUAGES

English, Hindi, Gujarati
